EDUCATION

Sanskriti University, Mathura

B.Tech in Computer Science & Engineering(AI & ML)

CGPA: 7.53 / 10

2023 – 2027

Mathura, UP

ABOUT

Results-driven B.Tech Computer Science student seeking a Data Analyst Internship to apply skills in SQL, Python, Excel, and data visualization. Strong understanding of data cleaning, data analysis, and reporting with hands-on experience through academic mini projects. Skilled in problem-solving, analytical thinking, and extracting meaningful insights from datasets. Eager to contribute to data-driven decision-making while gaining practical industry experience in a collaborative environment.

PROJECTS

Loan Approval Prediction System

SQL, Python, Excel, Machine Learning

- Developed a loan approval prediction system using SQL and Python.
- Performed data cleaning, filtering, and preprocessing on customer financial datasets.
- Used SQL queries for data extraction, joins, grouping, and analysis.
- Analyzed factors affecting loan approval such as income, credit history, and loan amount.
- Created visualizations and generated insights for decision-making.
- Applied machine learning techniques to predict loan approval eligibility.
-  [GitHub](#)

TECHNICAL SKILLS

Languages & Tools: SQL (Microsoft SQL Server), Python, Excel .

Core Competencies: Data Analysis , Data Visualization, DBMS, OOPs(basics).

Soft Skills: Problem-Solving, Communication, Teamwork.

EXTRA-CURRICULAR ACTIVITIES

- Developed basic analytical projects using Python libraries and SQL queries.
- Performed data cleaning, filtering, and visualization on sample datasets.
